DISCONNECTION TIMES: PUTTING IT ALL TOGETHER

DISCONNECTION TIMES, IN A MINUTE.

The whole masterclass on one page. Decide the circuit type first, then the earthing system gives you the time.

Sparky's advice

This can feel overwhelming, but it's not meant to be. **Rewatch it two or three times**, then **draw your own installation** like ours, with different circuits, and work out which table or regulation each one falls under and what its time is. This topic gets a lot of questions, so it's an important area.
